NOTICE ABOUT OFF-LABEL USE PRESENTATIONS

This course may include presentations on drugs or devices, or uses of drugs or devices that may not have been approved by the Food and Drug Administration (FDA) or Therapeutic Products Directorate (T.P.D.) or have been approved for specific uses only. The FDA and T.P.D. have stated that it is the responsibility of the physician to determine the FDA or T.P.D. clearance status of each drug or device he or she wishes to use in clinical practice.

We are committed to the free exchange of medical education. Inclusion of any presentation in this program, including presentations of off-label uses, does not imply an endorsement of the uses, products, or techniques presented.

Course Director

Pauline Raymond-Martimbeau, MD, Dallas, TX, USA

Course Description

This course is designed to orient the physician to the basic approach to cosmetic procedures. The course will include coverage of patient selection, pre-operative evaluation, a detailed review of various thread techniques, post-operative care, and complications.

Participants will observe procedures on facial and neck threadlifts and will familiarize with material and protocols.

After this course, participants will have information concerning:

- Anatomy of the face and neck
- Basic techniques of non-surgical face lift and neck lift with threads
